📞 933-459-4303 — ✉ aryanrajr1@gmail.com —  linkedin —  Github

Summary — Passionate B.Tech CSE student specializing in AI/ML, eager to explore and build intelligent solutions. Skilled in Python, machine learning, and data structures, with a strong problem-solving mindset. Always excited to learn, innovate, and apply AI to real-world challenges. Looking for opportunities to grow and make an impact in the tech world.

Skills

- **Programming Languages:** Python, C++
- **AI/ML:** Pandas, NumPy, Matplotlib, Data Analytics
- **Databases:** MySQL
- **Development Tools:** GitHub, Jupyter Notebook
- **Soft Skills:** Problem solving, critical thinking, team collaboration, communication skills, Adaptability

Work Experience

Virtual Internship in Gen AI

Virtual

Skillible

Jul-Aug 2024

Participated in a 6 weeks virtual internship focused on generative AI, gaining hands-on experience with cutting-edge AI technologies.

Internship on AI: Transformative Learning with TechSaksham

Virtual

AICTE (Microsoft & SAP joint CSR initiative)

Dec(24)-Jan(25)6 weeks

Completed an internship focusing on AI technologies, culminating in a project on "Spam Email Detection." Worked on developing an AI model to identify and filter spam emails, enhancing email security and user experience.

AI and Data Analytics Virtual Internship

Virtual

AICTE, Shell India & Edunet Foundation

Feb-Mar 2025

Completed a 4-week internship focused on AI and Data Analytics with an emphasis on green skills in the project "AQI prediction". Explored real-world applications of AI, gaining insights into sustainable solutions through data-driven technologies.

Internship: Building Modern Web Applications with MERN Stack

Virtual

AICTE, EY Global Delivery Services & Edunet

Mar-Apr 2025

Completed a 6-week internship as part of the Next Gen Employability Program. Developed hands-on skills in MongoDB, Express.js, React.js, and Node.js to build scalable, modern web applications. Gained insights into full-stack development and real-world deployment practices.

Education

B.Tech CSE-AI ML

Bhopal, India

CGPA: 7.38

Lakshmi Narain College of Technology Excellence

2022 – Present

10+2

Ranchi, India

Percentage: 81%

DAV Kapildev Public School

2021

10th

Gumla, Jharkhand, India

Percentage: 86%

Notre Dame School

2019

Certifications and Awards

- Generative AI Virtual Internship Program – Skillible & AICTE (Jul-Aug 2024)
- Ethical Hacker Course – Cisco Networking Academy (Dec 2024)
- Data Visualisation: Empowering Business with Effective Insights – Certificate of Completion (December 5th, 2024)

Projects

Image Classification of Fruits and Vegetables using CNN

- Developed a deep learning model using Convolutional Neural Networks (CNN) to classify various fruits and vegetables based on images. Implemented using Python and popular libraries such as TensorFlow and Keras.
- Enhanced accuracy of classification by tuning hyperparameters and employing data augmentation techniques.
- Deployed the model using Streamlit and created an interactive web application available at:- [🔗Project link](#)
